

FEATURES	
HDMI (High Definition Multimedia Interface) Certified for HDTV and Set Top Receivers	
Unparalleled Connection Quality for Audio and Video	
Dual Shielding Reduces Interference, Noise, and Distortion	
Aluminum-Polyester Foil Shield and 95% Copper Braid Shield	
High Quality Gold Plated Connectors	
Flexible Black PVC Jacket	
Balanced Cable for Optimum Performance	
HDMI Ethernet Channel: An added data channel to the HDMI connection allows high-speed, bi-directional communication. This allows HDMI users to connect their IP-enabled devices without the use of a separate Ethernet Cable.	
3D Capability: Supports common 3D formats and resolutions for HDMI-enabled devices, enabling 3D gaming and other 3D video applications. Also facilitates 3D resolutions up to dual-stream 1080p.	
4K Support for Higher Resolutions: HDMI can now support extremely high HD resolutions, roughly four times the resolution of 1080p. 4K accommodates two display formats - 3840 pixels wide by 2160 pixels high @ 24 Hz / 25Hz / 30Hz and 4096 Pixels wide by 2160 pixels high @ 24Hz	
Audio Return Channel: This allows an HDMI connected TV with a built-in tuner to send audio data upstream to a surround audio system. This eliminates the need for a separate audio cable.	
Additional Color Formats Supported: HDMI now provides an extended range of available colors that are used in many digital cameras. By providing support for these additional color formats, sYCC601, Adobe®RGB, and Adobe®YCC601, HDMI users now have better and more accurate color when viewing digital photos.	
3 Year Warranty	
ATS-HDMI-3-BLK	3 FOOT LENGTH HDMI CABLE ASSEMBLY, BLACK JACKET
ATS-HDMI-6-BLK	6 FOOT LENGTH HDMI CABLE ASSEMBLY, BLACK JACKET
ATS-HDMI-12-BLK	12 FOOT LENGTH HDMI CABLE ASSEMBLY, BLACK JACKET
ATS-HDMI-25-BLK	25 FOOT LENGTH HDMI CABLE ASSEMBLY, BLACK JACKET
